

# DIMAS PETERSON

Full Stack Developer

## ABOUT ME

I am a 29 years old, self-taught student, with a growing fanaticism for computer technologies. I consider myself a cooperative, curious person, eager to learn and improve. There is where my interest in continuous training began. My english is basic but I'm working on improve it. I am looking for a company that offers me the opportunity to continue evolving in the world of development, involving myself 100% with the projects to achieve those objectives.
